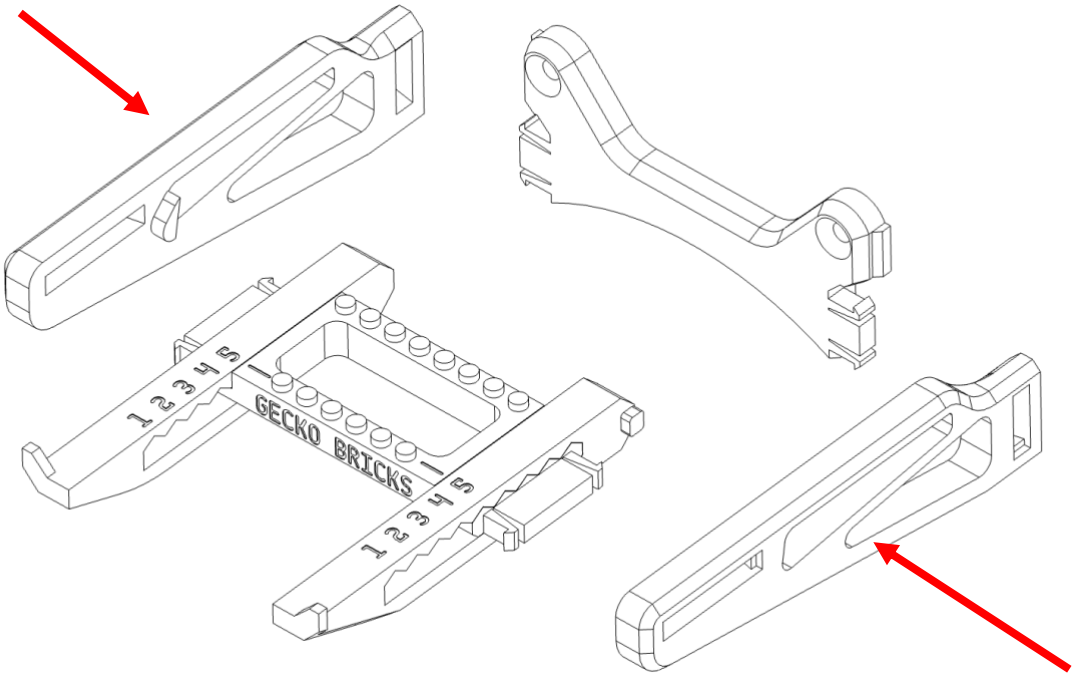
- 76956 – T. rex Breakout 5



Wall mount Instructions
For Diorama sets

Steps for 76956 – T. rex Breakout wall mount spacing

1. Carefully remove the 4x10 black plate from under the set and use this to determine the correct spacing (return the plate when done).

2. Position the plate against the side of the first mounted bracket as shown below.

3. Offer up the second bracket as shown and mark the hole position on the wall.

4. Continue to install the second bracket as normal.
