

## Horizontal Wall Mount Instructions For UCS VENATOR – (75367)

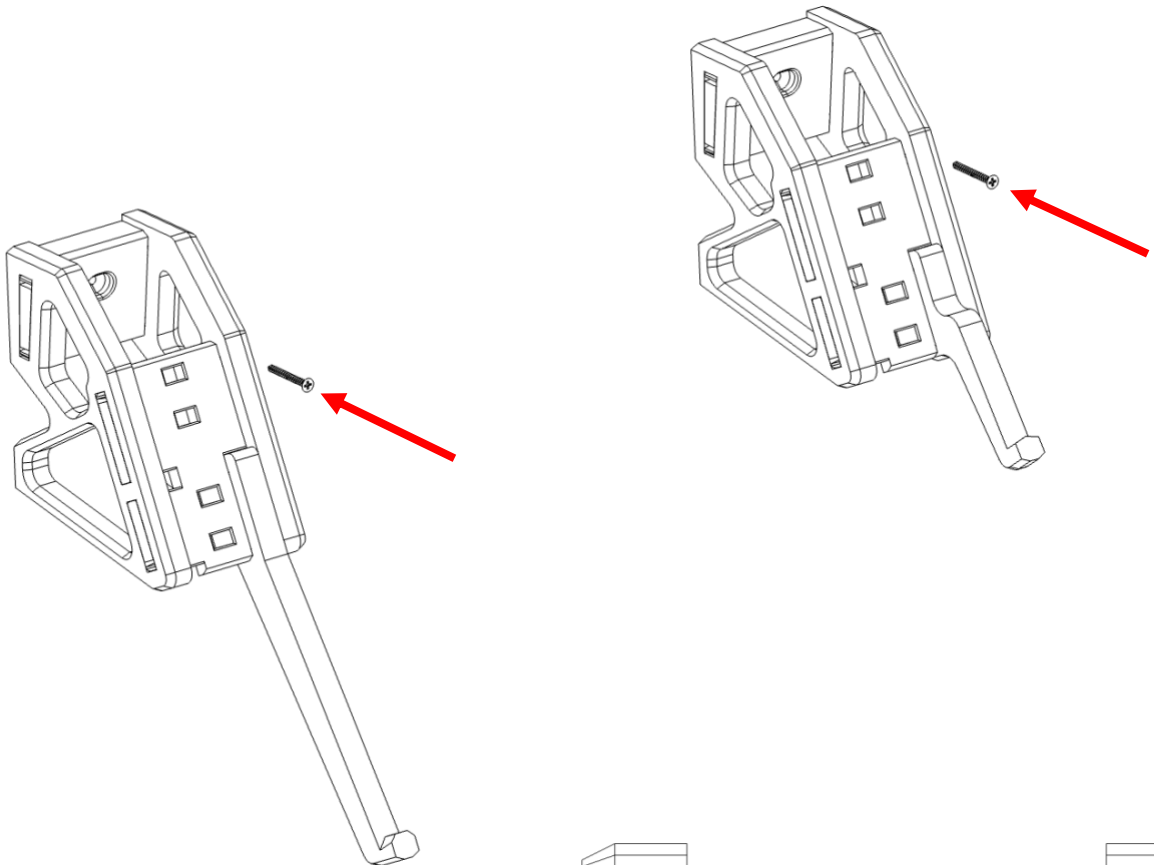

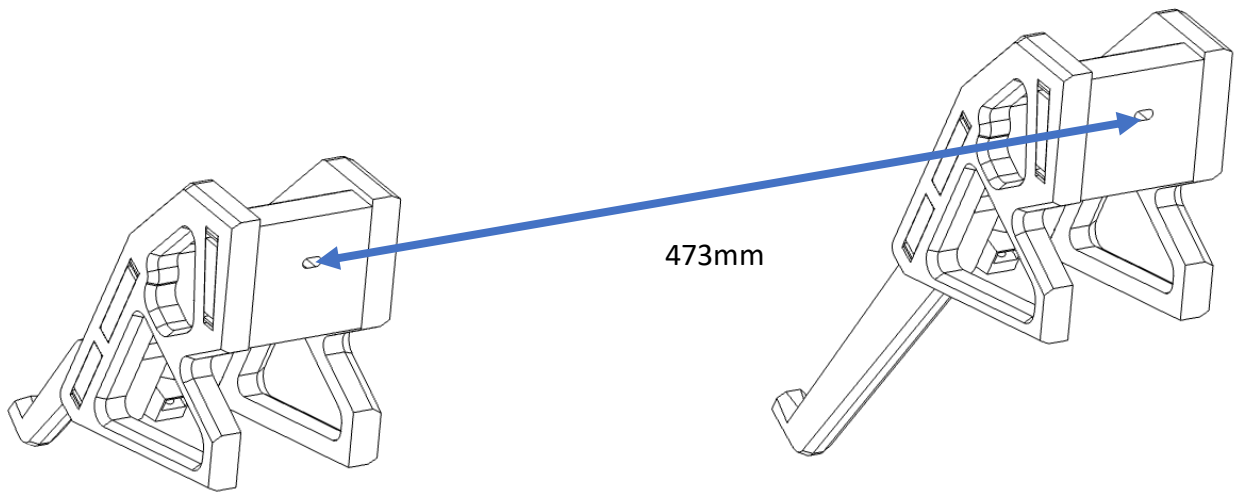

Setup for Ship facing left

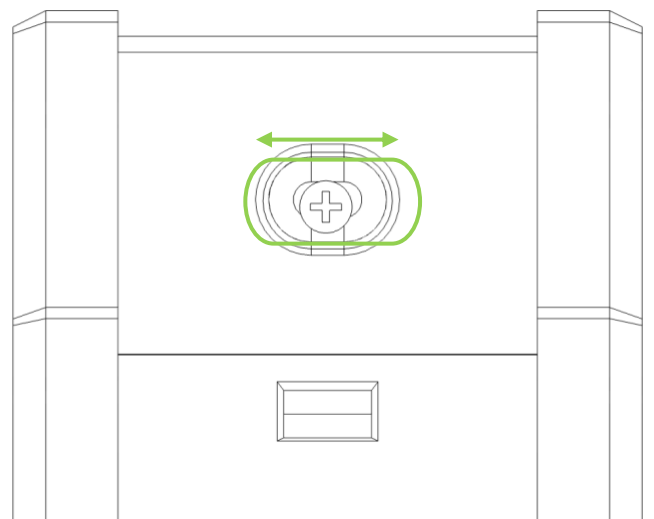

Setup for Ship facing right

## Horizontal Wall Mount Instructions For UCS VENATOR – (75367)

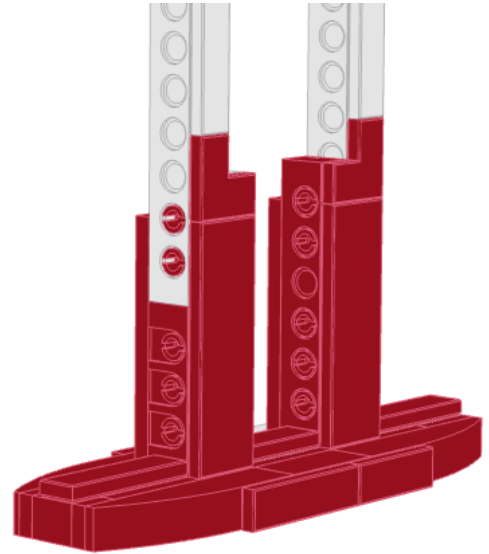

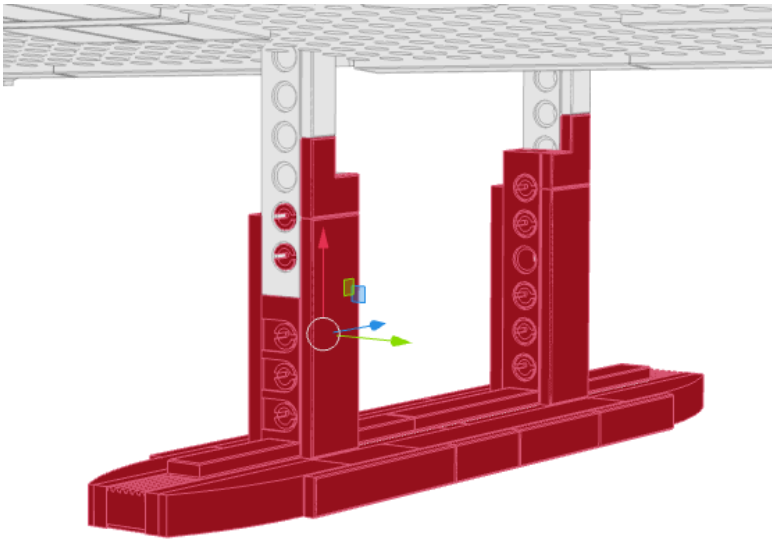

Adjustment left and right for any  
misalignment in the next step

## Horizontal Wall Mount Instructions For UCS VENATOR – (75367)

Remove the bricks shown in red from the stand assembly

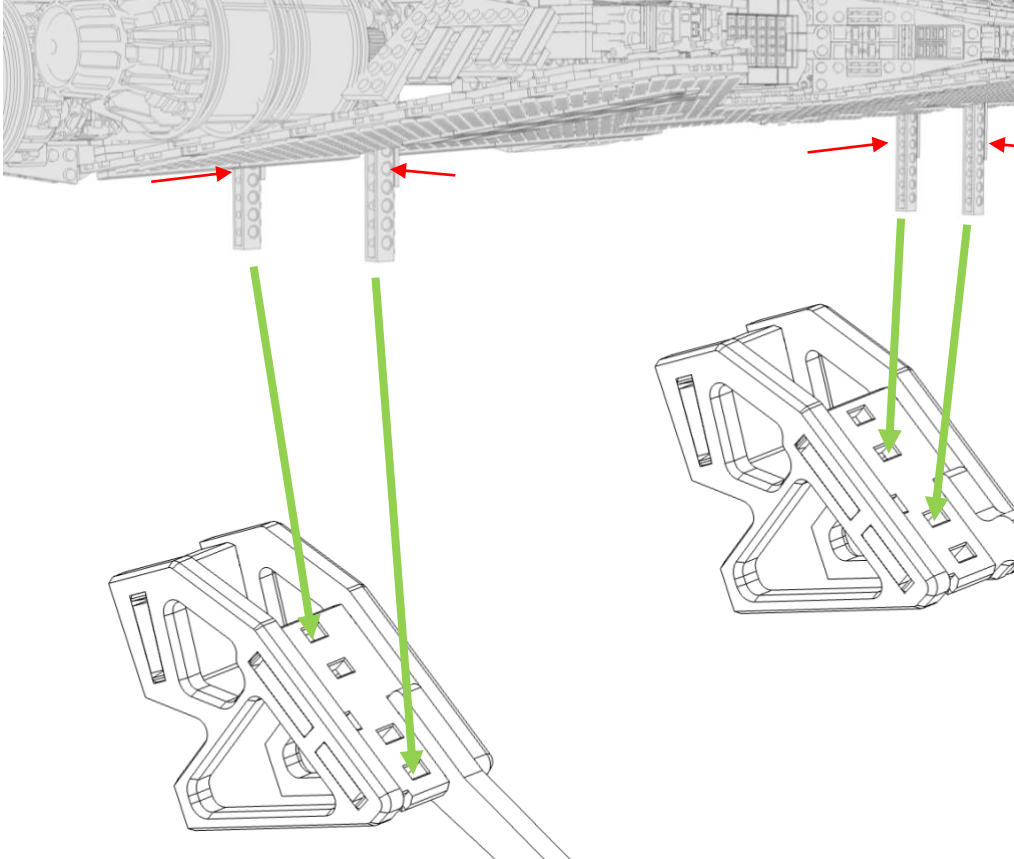

Remove the panels and sections shown from the main body of the ship

## Horizontal Wall Mount Instructions For UCS VENATOR – (75367)

From the removed parts of the stand, locate 4x technic pin parts shown to the right and locate them on the stems of the legs. (fifth hole from the bottom)

Carefully lift the ship to the installed wall mount and lower the remaining stand pieces into the insert holes as shown

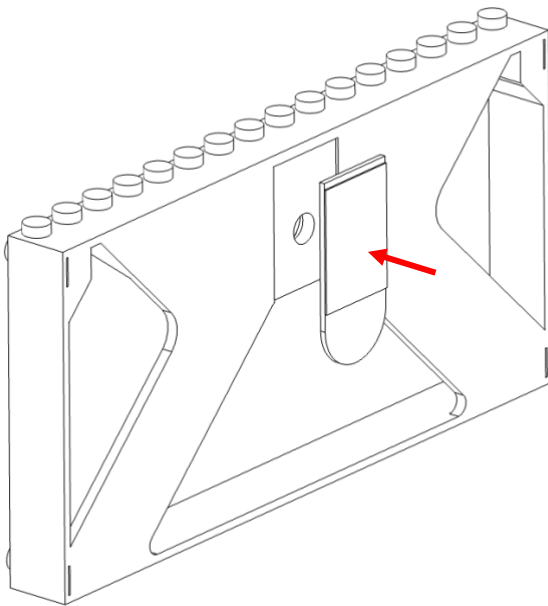

(note this is for right hand facing, but mirror this for the left facing).

This can be a 2 person job. If the legs do not align correctly, please adjust the position of the wall mount accordingly
